**Attachments:** image003.png, image004.jpg, image005.png

Good Morning.

I have requested that our contractor replace the damaged post supporting the 30MPH road sign opposite Slessor Road with a much longer post.

The sign can be re-erected at a similar height to that now.

I have also requested that the Highways Design Consultancy for Street Lighting have a look at the Structural integrity of the 2 lamp columns that we identified as being appropriate locations for your devices.

Chippenham Rd, B4069 - What3words - ///miss.plunger.unloads, Lamp Post Number – 27

Calne Rd, A3102 - What3words – ///prank.grapes.flux, Lamp Post Number – 13

When I get this information I'll respond again.

I trust this is acceptable to you in the meantime?

Regards.
