I was wondering who I would speak to regarding the footpaths in Lyneham. I moved here in December and have struggled to access Tesco and Co-Op and the bus stops from my home on Eider Avenue in my wheelchair due to pot holes, lack of dropped kerbs or dropped kerbs that still have a step. I know that the majority of the community is military and therefore fit and healthy but I know I am not the only resident with mobility issues. I want to retain my independence but it takes me 3 crossings, and an illegal journey on the main road to reach the bus stop from my front door I do not feel that I am valued as a human resident in Lyneham. I look forward to hearing from a member of the parish Council soon regarding my concerns.
