Hi Elizbeth

I hope you are well

Its that time again , time to cut down the wildflower meadow in the layby in Lyneham !

I am happy to do this at the same price as last year e.g. £ 264.00+vat and now would be a good time, September

Its looking pretty good this year after last years dry summer when we lost some of the species, but with this year being completely different (mainly wet and warm) I will take some photos soon and show you how it's looking

In an ideal world it would be good to over sow with some more wildflower seed, but that has a cost about £150.00+vat which means we can have some poppies cornflowers etc (annual wildflower) as there is room in the ground due to the loss of some species last year . let me know your thoughts as I would sow the seeds at the same time as cutting down the meadow

Let me know asap please

Take care

Barry
