Intended Age Range 12+

Overall Space Required – Site dependant, Can be arranged in various layouts to suit.

PRODUCT DESCRIPTION

Natural looking shreds, ideal for all areas. All products are drop tested to BSEN1177 safety standards, so are suitable for home and school use. Rubber Mulch shreds have been ingestion tested and classified as toy safe. 100% recycled rubber mulch; replaces virgin EPDM rubber.

The Rubber Mulch has excellent drainage properties as it's extremely porous making it an ideal all weather surface, however consideration needs to be given to the drainage qualities of the existing surface that the new bonded Rubber Mulch will be laid on top of. Poorly draining areas and areas that are prone to hold water will benefit from an appropriate drainage system prior to installation, without sufficient drainage it can lead to the soil erosion beneath.

PRODUCT DESCRIPTION

Wetpour is a two course "wetpour" safer surface. The top 15mm comprises a mixture of high strength EPDM rubber granules bound together with polyurethane. The bottom course, the depth of which varies according to the critical fall height of the equipment, is made up of soft, resilient rubber shred, which is again mixed with a polyurethane binder. The result is a surface which is able to absorb the impact of a falling child, reducing the risk of serious injury, but which is also extremely durable.

SOVEREIGN
BRINGING IMAGINATION INTO PLAY

PRODUCT DESCRIPTION

Needlepunch can be laid onto existing tarmac areas, or installed with groundworks into a grass area to ensure the best longevity.

Maintenance:

As a sports surface Needlepunch is infilled with sand to make it extra hard wearing. This should be topped up occasionally. Check out our install guides for more information. A regular check for foreign objects in the fibres is recommended along with occasional brushing to maintain the pile.

Note: The sand used for Needlepunch installation will require 2 weeks to bed in and show the true colour of the court.

If the surface becomes wet during installation, the area can still be used and we will return to spread the sand at the earliest opportunity when the area is dry.

Please note that if you choose to undertake the groundworks yourself or decide not to proceed with our quotation for the full groundworks, we cannot accept responsibility for any issues with the finished surface that arise from the groundworks. The needlepunch surface will naturally follow the contours of the existing base and therefore, any undulations, imperfections, or irregularities in the final surface resulting from base preparation will not be the responsibility of Sovereign. When doing partial groundworks, this is not recommended therefore problems due to this product will not fall under Sovereign's responsibility, and full payment will be due on completion.

Any balance invoices shall be payable in full upon completion of the installation, regardless of the installation date. Payment arrangements for any balance must be agreed and in place prior to the school closing.

Failure to comply with the payment terms set out in this clause may result in the installation being delayed, rescheduled, or cancelled at the Company's discretion, without liability.

Additional Information

Site security, Welfare, Power and Water

To keep costs to a minimum, no allowance has been made for site security, welfare facilities, power or water unless otherwise stated, so we ask that you provide these as required.

Our installation engineers will use a temporary 1 metre high orange barrier for excavated holes and unfinished works. Should more substantial fencing be preferred, there would be an additional charge for this as we will need to hire, assemble and dismantle upon completion.

If at any point during the installation in term time welfare facilities are not available, the client should advise us immediately, if we cannot find a local facility, a charge may be incurred for us to hire portable lavatory facilities.

Pre-Installation Surveys

If you are having old equipment / surfacing removed from the area of installation or groundwork's undertaken by any party other than Sovereign, we would recommend a pre-installation survey to confirm the area has been prepared correctly prior to our works commencing. The cost for the pre-installation survey is £149.00 plus VAT.

Should you not opt for a pre-installation survey, and works are not completed as required this may lead to either a suspension of the installation and an abortive visit charge, or alternatively we may be able to complete the preparation and charge accordingly.

Underground Services

All due care will be taken to locate underground services prior to excavation, however no responsibility can be accepted if any unknown or incorrectly sited services are damaged. Where possible, we ask you provide us with drawings or plans for services. Aborted/additional site visit charges may apply if we have to leave site following the finding of previously unknown services.

Supply Only / Installation by a Third Party

We are unable to accept duty of care for equipment sold supply only and installed by a third party and cannot verify the installation will be compliant to BS EN standards.

Please note that Sovereign supply the latest available instructions for supply only items. Due to constant design improvements some minor variances are to be expected. Bespoke/Customised Supply only items will have guidelines and images rather than full installation instructions, based on other similar products. Sovereign recommend the use of trained playground installers to fit playground equipment to ensure familiarity with safety standards and the design principles of the installation. These installers should be able to work with guidelines given for installation. Should you require assistance please call 01702-291129 to speak with one of our advisors.

Planning permission / Building regulations

It is your responsibility to obtain the necessary approval, and we recommend that you attain the appropriate advice from your local authority before proceeding, as requirements do vary.

Design changes that have occurred due to planning permission and building regulation requirements may incur additional costs. You will need to pay any fees relating to planning or building regulation applications, local authority and survey fees.

Artificial Grass

To minimise the risk of concentrated sunlight causing heat damage to the artificial grass, we strongly recommend that Perspex panels, mirrors, and shiny/reflective hanging mobiles are removed from proximity of the artificial grass.

Weather Delay Clause

If, for any reason, adverse weather conditions prevent the completion of the works, we will invoice for materials, but not for unperformed labour. Where necessary, materials may be collected and stored securely until such time the works can be rescheduled.

Additional Information

Removals / Repairs

Removal costs include clearance of waste from site and the statutory requirements of licensed disposal of rubber and commercial waste unless otherwise stated.

When removing or repairing existing equipment, sometimes the components parts can fail and additional costs maybe applicable to replace.

Any holes created by removals to be floated over flush with dyed concrete unless stated otherwise.

Wetpour / Band Repairs

We are unable to offer any guarantee when patch repairing existing wetpour/mulch, as we cannot anticipate the reaction of new materials with the existing. Colour between repair and existing wetpour/mulch may vary due to manufacturer and age.

Surfacing with groundworks will create a flat playing surface while following the existing ground profile. Surfacing without groundworks will follow the existing contours of the ground.

Additional Information

Although every care will be taken, our quotation does not cover any damages that may occur over the access route. We can provide ground protection costs for the access route if required and this will be itemised on your quotation.

Unless stated otherwise, levelling of the proposed installation area is not included with our quotation and new surfacing will follow the undulations of the ground.

Markings

Due to the installation process we are unable to lay markings onto a dirty surface, because it impacts the longevity of the product. If you are unable to clean or clear the surface prior to installation, Sovereign can provide a quote upon request.

Please note that when removing lines from old tarmac it is possible for uplift of surface due to age. Although we aim to remove all markings, we assess condition of surface while working and may leave areas if they may become too damaged.

Metalwork

If metalwork is called up as 'Stainless Steel' or 'Galvanised', this will apply to all major metal components & bracketry only.

Fixings unless otherwise specifically stated will be zinc-plated & yellow passivated.

If the product is majority timber based, the in ground posts will be our standard tanalised timbers, unless in-ground metal post feet has been specified.

note that metalwork warranty against structural failure excludes rot due to being installed in areas that retain water or are prone to flooding

note that timber warranty against structural failure excludes metal components which rust due to geographical location (e.g within 5 miles of the coast)

Pergolas

If the pergola is not located near to a rainwater drain, please be aware that the down-pipe will simply expel the water onto the install surface. No additional drainage / soak-away works are included unless stated.

Needlepunch

Please note that if you choose to undertake the groundworks yourself or decide not to proceed with our quotation for the full groundworks, we cannot accept responsibility for any issues with the finished surface that arise from the groundworks. The needlepunch surface will naturally follow the contours of the existing base and therefore, any undulations, imperfections, or irregularities in the final surface resulting from base preparation will not be the responsibility of Sovereign. When doing partial groundworks, this is not recommended therefore problems due to this product will not fall under Sovereign's responsibility, and full payment will be due on completion.
