Hello all,

Looking at last months quarterly figures we are seeing a decrease in most offences but a small increase in theft and violence crimes, we are still seeing a steady increase in road related incidents (Accidents, drink/drug driving, cyclists reporting near misses) and with the annual drink drive campaign starting next week we will probably see these increase again next month, but on the positive side this means we are catching drink drivers before they can injure or kill someone else.

As always please feel free to E-mail me if you have any questions or need any clarification with the graphs and I'll get back to you as soon as I practically can.

Andy
