DESCRIPTION	RATE	QTY	AMOUNT
Lyneham the green tree works needed for safety.	£8,754.00	1	£8,754.00

Myself and Simon Penfold inspected the trees last week and found the following problems including as expected numerous trees with ash die back, many trees have major dead wood and nearly all trees over 300 need to be crown lifted to enable the paths to be clear and driveways for emergency service vehicles and the remainder for the general public and people mowing and caring for the site, we observed in total 13 trees that are dead or significantly dying that they are not safe and must be removed, some of these trees are very large indeed and will require delicate removal from my tree surgeons, the total cost to do all works will be £8754pounds

Tree numbers are quoted where they can be seen

Ashtree next to 3340 ash die back fell

3330 major deadwood

Purple beech major deadwood

341 ash die back

351 major deadwood

357 deadwood

Ash by drive by bus shelter ash die back fell

369 major Deadwood

Birch by piggies dead branches
