DESCRIPTION	UNIT PRICE	QTY	TOTAL
-------------	------------	-----	-------

Proposed tree contract Lyneham the green			£3,947.00
--	--	--	-----------

Proposed contract for Lyneham the green to do a tree report every 18 months and to do all the necessary works from the findings of the tree report to make the green safe and habitable for people to use, These works would include the removal of all dead branches, limbs and branches over wires and road signs. Any tree that is deemed unfit will be felled and all other works including crown lifting over paths and drive ways would be completed. All necessary reports will be sent to the council for permission to be granted. The only caveat to this would be storm damage out side of the tree report and the ash trees I feel would be in everyone's best interest if they were based on a tree by tree basis as nobody really knows how quickly this disease will take hold and it may take a lot longer then what these people predict. Unnecessary bills would be added if this turns out to be true as no ash tree should be felled until the disease has really taken hold.

SUBTOTAL	£3,947.00
