DESCRIPTION	RATE	QTY	TAX	AMOUNT
To reduce all possible trees and excessive growth around church park, solar park and playing field, hedges to around 7/8 feet this is substantial work as access is very limited so nearly all works have to be done by hand and many have to be cut in church park gardens and it has obviously been many years since this was last done also with the added complexities of sheds and greenhouses in the way and removing the waste out of the allotments as it will all have to come out of the playing field gate, I would suggest moving forward if these works are done then an annual trim would be a simple and cost effective option.The works would take a team roughly a week to complete	£4,750.00	1	£950.00 20%	£4,750.00

SUBTOTAL	£4,750.00
TAX	£950.00
