Report from Cllr Carol Jenkins

Re Lighting at the Pedestrian Crossing beside MOD main entrance

Prior to the May14th meeting I had an informal chat with Allison Bucknell with regard to the attached CATG issue. She informed me that a pelican crossing would not be approved as there wasn't the footfall to justify it. She suggested improved lighting. At the PC meeting I told everyone this information. Allison had also told me of some costings from 2016 of £2500 per pair which had not been used before and a cost of £3900 per pair which had been used before. So we agreed to contribute up to £2000 as Allison said they ask for a contribution of up to 25% from the PC.

We've been awaiting costings and it'll be useful if these are known before our Dec meeting as our next CATG meeting isn't until Dec18th.
